

AMI AMR SMART CITIES CONSERVATION PROCESS ADVANCED METERING

United Systems understands that utilities manage a multitude of details in the delivery of reliable water and energy services — all while keeping customers happy and engaged.

We also know that utility executives are concerned about the risks associated with the deployment of widespread technology.

We get it. Water and energy utilities are expected to continue to deliver reliable service to their customers, now and into the future. Utilities rely on technology to help manage their issues, but each utility has its own time frame and specific challenges; “one-size-fits-all” technology is not the answer.

United Systems offers innovative technology to help utilities sustain and optimize the delivery of water and energy— Advanced Metering Infrastructure (AMI).

These are big decisions and utilities need a guarantee of actionable results— read on for details on our unique process and the outcomes that enhance services for your community.

PROVEN PROCESS

- 1. Solution Design.**
 - Assessment Process
 - Goals & Scope Definition
 - AMI Network Propagation Studies
 - Return of Investment Analysis
- 2. Project Management.**
 - Scope of Work
 - Project Timelines
 - Network Delivery Schedule
 - Meter Deployment Schedule
- 3. Solution Delivery.**
 - CIS & AMI Software Integration
 - Field Engineering & Site Preparation
 - Product Acquisition
 - Mobilization
 - Network Installation & Commissioning
- 4. Lifecycle System Support.**
 - Periodic System AMI Health Check
 - Remote & On-Site Troubleshooting
 - On-going Updates & Training

In Sum.

United Systems manages the entire advanced metering implementation – resulting in a comprehensive AMI solution, aligned with solid CIS software integration, that is truly a useful “smart” metering platform. Let’s start a plan today so you can realize desired results and tangible outcomes for your community.

ABOUT US

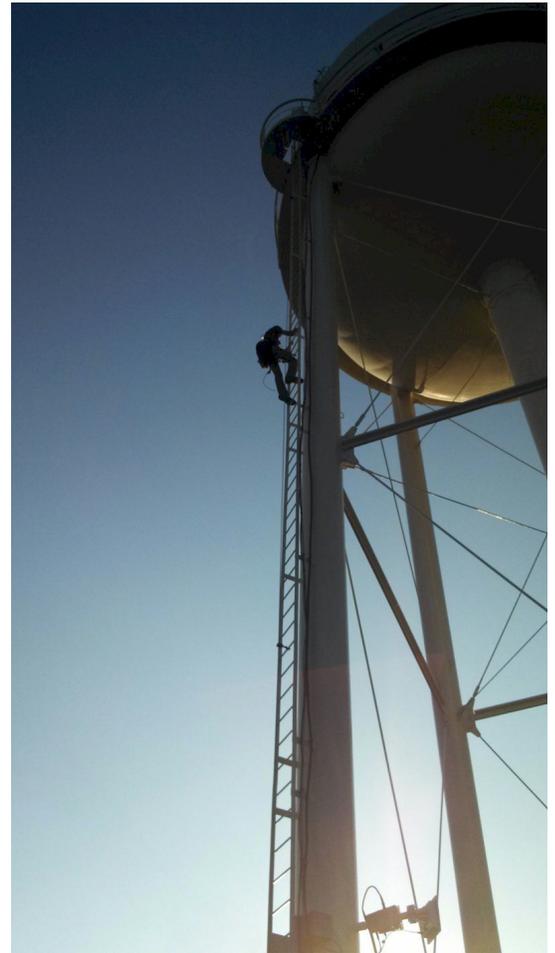

United Systems now serves 1,000+ utilities throughout the central U.S. Founded in 1977, United Systems is also one of the nation’s most accomplished distributors for Itron Corporation. Since 1999, we have represented Itron and now serve an 18+ state region by specializing in delivering radio-based, fixed network, mobile and water loss management solutions.

Itron Inc. is the world’s leading provider of metering, data collection and utility software solutions, with nearly 8,000+ utilities worldwide. Itron has annual revenue in excess of \$2.2B and is traded on NASDAQ under ITRI.
